President's Message for September 2016

To all club members:

I only have one important thing to say this month. It has come to my attention that we may have a number of club members that either do NOT have membership in the IFFF or their membership has not been renewed. This is a very important thing and has been brought up before in our monthly meetings. As we are a charter club, one of our duties is to have ALL of our members belong to the IFFF. In return they provide us with liability insurance for our members.

I am asking everyone to please provide us with your IFFF membership numbers and expiration dates at this month's meeting. If you will not be at the next meeting please send me the info via email to mike3446@aol.com. We will be putting this info on our roster so we can remind you if your IFFF membership is coming up soon. Also, you can provide us with any new expiration dates if you get to it first. I hate

to have to harp on this, but it is very important to all of our members. It is not that expensive, but it is a necessity. Thank you for listening. You will however hear this again at the meeting. Tight lines and happy fishing. President, Mike Hayes

The next HDFF meeting on Sep.13th with Rob Buhler

Make sure that you attend the next HDFF meeting on Sept. 13th. Rob Buhler will be giving us instructions on tying his successful Micro Minnow Fly.

HDFF Fly Tying Group

Our HDFF Fly Tying Group will be held at the Bishop's house on Sept. 18th. If you have never tied a fly, or want to practice, we have materials and vices.

Please join us. For directions call: Barry 760-220-8019

IFFF Fair in Bishop

We are hoping that most of you are planning on attending the Fly Fishing Fair this year at the Tri – County Fair Grounds on Oct. 14th through the 16th. Please plan on either joining the club by camping or a staying in a hotel. We have a Pot-Luck dinner planned for Saturday evening. We also get out and do some fly fishing. You can register with the Fair on the IFFF website.

Fly Fishing Reports

-Upper Owens water flowing nicely, fishing good in deep runs and holes. Fish with beetles, hoppers & ants. Buggers and nymphs are good all day.

-Lake Crowley has been producing large trout as usual. Fish 13 to 19 ft. and 3 to 6 ft. from bottom. Watch your indicator closely.

-Lower Owens has wonderful 225 cfs. of flow. Great Dry Fly action, along with hoppers and stimulators.

-Guy Jeans at the Kern River says that the low water flow makes great wading for Fly Fishing. 20ml section of the 'N' fork doing good on late evening hatches, with cadis and mayfly imitations.

Quote for the month:

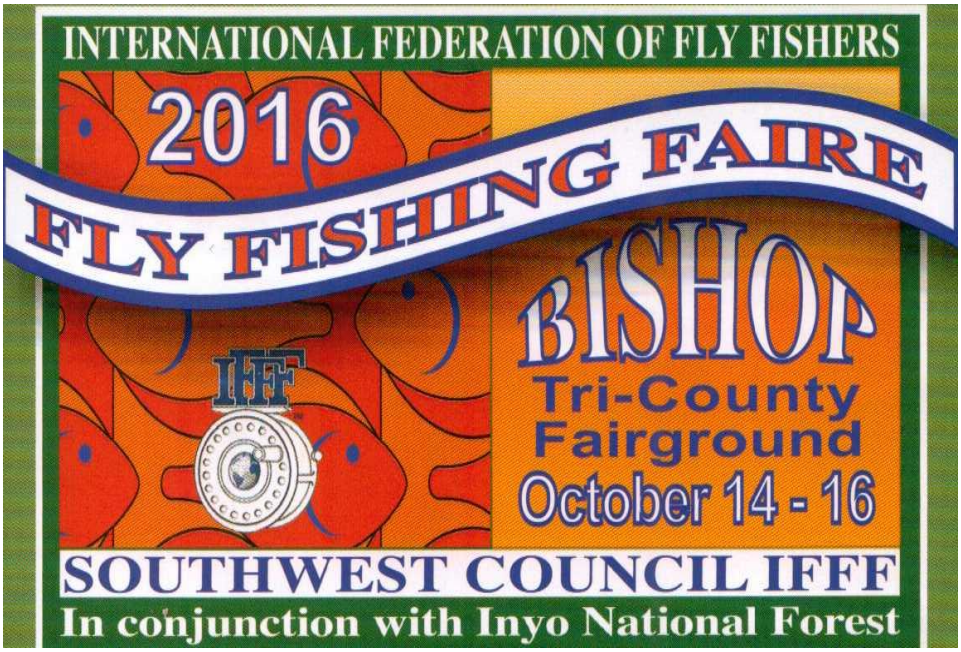
No one appreciates Fly Fishing as much as the worm.

Also check out the Library on the club's website: www.highdesertflyfishers.com

Our Annual Picnic and Casting instruction was a success

We started the picnic at 9 am. trying to avoid the wind. Great pastries and coffee were served, at noon we had two varieties of hotdogs and side dishes with sodas for lunch. I believe that I counted 11 members that attended the Picnic. Several of us took a casting instruction lessons from Bill Heard, the certified instructor.

See the International Fly Fishing Fair Flier Below.



Hi-Desert Fly Fishers
